PRODUCT GUIDE

**PASSION
PERFORMANCE
DETAIL
QUALITY
FOCUS
COMMITMENT**

For close to 45 years, we have been committed to designing and manufacturing the finest performance parts on the market for dirt bike and ATV riders. From our original shop to our current headquarters in Corona, California, products like our Works pipe, R-304 silencer, Ti-6, engine components, triple clamp sets, clutch covers and more were all painstakingly put together in an effort to ensure our customers have the very best to put onto their motorcycle. These products have taken wins in supercross, outdoor nationals, along with amateur and off-road events throughout the years.

How we got there is no different than what we do today. Our focus on quality performance products, great engine and suspension services and the drive to help riders reach their own goals continues to be our priority. Whether your goal is to be supercross champion or to enjoy a fun day with friends on an off-road trail, any way we can contribute to your journey gets us opening up our shop doors in the morning.

This is our pledge to our customers that the superior exhaust products, tuning of engine and suspension parts, accessories and apparel items that they have come to know and love will forge ahead. We're far into the moto, yet our passion for motorcycles isn't fading and our determination to deliver the best products has us pushing through the breaking bumps and the deep ruts.

RV SPEC TI-2 SHORTY SILENCER **\$329.95**

» Available only for the 2002-2021 YZ125, the Ryan Villopoto Spec Ti-2 silencer was fitted for the multi-time champion but can now be bolted onto your bike. Offering a professional look and factory sound, the RV Ti-2 version increases power on the bottom-end when compared to a stock YZ125 silencer. The Ti-2 is proudly made in the USA.

RV SPEC WORKS PIPE **\$265.00**

» Available only for the 2005-2021 YZ125, the Ryan Villopoto Spec Works Pipe was designed for the serious racer looking for a stronger pull on the bottom and middle of the powerband. This pipe offers a big advantage off the start or on tighter tracks where acceleration out of corners is important. This RV spec still features AKDQ high-quality carbon steel, hand welded and pounded seams, reinforced mounting brackets and stinger. This Works Pipe is proudly made in the USA.

TWO-STROKE PIPES AND SILENCERS

If you're in need of a new pipe and silencer, look no further, we have just what you need to enjoy your next ride or to rebuild that old two-stroke from the '90s. We offer an array of two-stroke exhausts ranging from the popular Works pipe and Ti-2 silencer for motocross racing to the Platinum pipe and Type 296 spark arrestor silencer for off-road racing and recreational use. With decades of experience, you can rest assured knowing you're getting an exhaust that is second to none.

Let's not forget about the younger riders! We also offer pipes and silencers for select 50s through 85/100s. They may be smaller in size, but they're big in power and carry the same performance as our standard sized bike exhaust. ATV exhausts are also available and our line extends into our Platinum pipe, 304 silencer and Type 296 silencers.

WORKS PIPE

FROM \$242.96

- » Works Pipes offer unparalleled performance and power for every two-stroke application. Increased horsepower and torque gains will quickly be noticed across the entire RPM range while the unplated, oiled metal finish gives your bike the "factory look". All Works Pipes are stamped AKDQ high-quality carbon steel, consists of hand welded and pounded seams and features reinforced mounting brackets and stinger. The Works Pipe is proudly made in the USA.

AVAILABLE FOR MINI BIKES

PLATINUM PIPE

FROM \$242.96

- » Offering the same performance gains as the Works Pipe, the Platinum Pipe comes with a nickel plated finish to reduce rider maintenance. It is the ideal choice for extreme weather condition riding and is stamped from AKDQ high-quality carbon steel, consists of hand welded and pounded seams and features reinforced mounting brackets and stinger. The Platinum Pipe is proudly made in the USA.

AVAILABLE FOR MINI BIKES AND SELECT ATVs

PLATINUM 2 PIPE

FROM \$262.46

- » The Platinum 2 Pipe offers incredible performance with substantial power gains in the low-to-mid range, but is tuned specifically for people who ride or race off-road. The Platinum 2 is also stamped from AKDQ high-quality carbon steel, consists of hand welded and pounded seams and features reinforced mounting brackets and stinger. The Platinum 2 Pipe is proudly made in the USA.

TI-2 SHORTY CARBON KEVLAR/TITANIUM SILENCER

\$329.95

» The Ti-2 is similar to the popular R-304 silencer except it is constructed with a carbon Kevlar shell, titanium tubing and titanium end-cap. The titanium and carbon Kevlar construction offers the "factory" look and appearance while reducing weight. For closed-course racing only. The Ti-2 is proudly made in the USA.

AVAILABLE FOR MINI BIKES

R-304 STAINLESS SHORTY SILENCER

\$141.71

» The R-304 was developed as a full-race two-stroke silencer. The compact design of the short aluminum canister offers optimum performance gains and is recommended for closed-course racing only. Allen head screws ensure easy repacking when needed for extended product life. The R-304 is proudly made in the USA.

AVAILABLE FOR MINI BIKES

304 FACTORY SOUND SILENCER

\$141.71

» The 304's slightly longer body offers added top-end performance while reducing noise output. The brushed aluminum body and stainless steel inlet tube and end-cap gives you a silencer that looks as good as it performs. The 304 is for closed-course racing only. The 304 is proudly made in the USA.

AVAILABLE FOR MINI BIKES AND SELECT ATVs

TYPE 296 SPARK ARRESTOR SILENCER

\$167.96

» The Type 296 is a quiet spark arrestor that should be used when riding in noise sensitive areas or any National Forest. It is easy to repack when needed and features an aluminum and stainless steel construction for increased durability. Equipped with a U.S.F.S. approved spark arrestor. The Type 296 is proudly made in the USA.

AVAILABLE FOR MINI BIKES AND SELECT ATVs

DESIGNED FOR EXCELLENCE

FOUR-STROKE EXHAUST SYSTEMS

Four-stroke exhausts are available for all major bike brands including Gas Gas, Honda, Husqvarna, Kawasaki, KTM, Suzuki and Yamaha. It's the perfect choice for amateurs, professionals or recreational riders looking for exceptional performance no matter what type of riding they do. Riders like Eli Tomac, Adam Cianciarulo, Chad Reed and the Pro Circuit race team have helped our exhaust lines progress so our customers can have the very best performance exhaust available on the market. This type of research and development for creating championship-winning products proves our exhaust to be one of the best in the sport. Also available are exhaust systems for a lot of the older and current ATV and UTV models.

Intended for AMA/FIM closed-course racing only.

TI-6 PRO TITANIUM EXHAUST SYSTEM

FROM \$1,049.96

- » Pro Circuit's Ti-6 Pro Titanium Exhaust System was created for professional racers competing in a series such as AMA Supercross or AMA Motocross to ensure they pass AMA/FIM sound regulations. The Ti-6 Pro is constructed of titanium throughout the head pipe, mid pipe and canister while the end-cap is constructed of carbon fiber. An RC-4 Resonance Chamber (select models) and a machined aluminum muffler bracket for durability are also added. Asymmetrical muffler configuration for higher packing volume and a machined mid pipe to head pipe joint for a better fit are other features. The Ti-6 Pro is the next generation of professional level race exhausts and is proudly made in the USA.

TI-6 TITANIUM EXHAUST SYSTEM

FROM \$1,049.96

- » The Ti-6 offers maximum performance and is constructed of titanium throughout the head pipe, mid pipe and canister while the end-cap is carbon fiber. The Ti-6 is perfect for any closed-course or off-road racer looking for improved performance, durability and a professional look. More features offered by the Ti-6 is the ability to meet AMA amateur racing sound requirements and that it comes equipped with a U.S.F.S. approved spark arrestor making it easy to alternate between off-road and closed-course racing. The Ti-6 also includes an RC-4 Resonance Chamber (select models) and a machined aluminum muffler bracket for durability. Asymmetrical muffler configuration for higher packing volume and a machined mid pipe to head pipe joint for a better fit are other highlights. The Ti-6 is proudly made in the USA.

T-6 STAINLESS STEEL EXHAUST SYSTEM

FROM \$818.96

- » The T-6 offers maximum performance and is constructed of stainless steel throughout the head pipe, mid pipe and end-cap while the canister is aluminum. The T-6 is perfect for any closed-course or off-road racer looking for improved performance, durability and a professional look. More features offered by the T-6 is the ability to meet AMA amateur racing sound requirements and that it comes equipped with a U.S.F.S. approved spark arrestor making it easy to alternate between off-road and closed-course racing. The T-6 is proudly made in the USA.

T-6 STAINLESS STEEL SLIP-ON SILENCER

FROM \$488.21

- » The T-6 Stainless Steel Slip-On Silencer is designed for a rider looking for an inexpensive, easy-to-install, durable performance silencer that can bolt onto their stock head pipe. This slip-on silencer is constructed of stainless steel throughout the mid pipe and end-cap while the canister is constructed of aluminum for increased durability. This slip-on is a great option for any rider looking for an increase in performance on a small budget and also comes equipped with a removable U.S.F.S. approved spark arrestor. The T-6 Slip-On is proudly made in the USA.

DECALS

FROM \$5.95

- » Available for most four-stroke systems. Older model decals are also available.

PACKING KITS

\$34.95

- » Keep your bike running quietly and its very best.

HEAD PIPES

FROM \$209.96

- » Works with OEM or Pro Circuit slip-on silencers.

Ti-5 TITANIUM SYSTEM CARBON END-CAP **\$1,049.96**

» Designed for optimum performance, the Ti-5 offers increased horsepower and is a perfect choice for closed-course racing. The System is made of titanium throughout the head pipe, mid pipe and muffler. Equipped with a machined aluminum muffler bracket and machined mid pipe to head pipe joint for a better fit. The Ti-5 is proudly made in the USA.

T-5 STAINLESS STEEL SLIP-ON SILENCER **FROM \$464.95**

» The T-5 Stainless Steel Slip-On Silencer was designed for a rider looking for an inexpensive, easy-to-install, lightweight performance silencer that can bolt right onto their stock head pipe. Equipped with a machined aluminum muffler bracket, a removable U.S.F.S. approved spark arrestor and optional insert for closed-course competition are also included. The T-5 is proudly made in the USA.

Ti-4R TITANIUM EXHAUST SYSTEM **\$1,049.96**

» The Ti-4R Titanium Exhaust System was designed to deliver unparalleled performance for closed-course competition. The System is constructed of titanium throughout the head pipe, mid pipe, muffler and end-cap. The Ti-4R also includes a CNC-machined exhaust flange on the head pipe for a better fit and strong mounting brackets for durability. The Ti-4R is proudly made in the USA.

T-4S STAINLESS STEEL SLIP-ON SILENCER **FROM \$341.21**

» The T-4S Stainless Steel Slip-On Silencer is an inexpensive, easy-to-install, lightweight performance silencer. A slip-on is a perfect alternative for riders who don't need or want to replace their stock head pipe. Includes a U.S.F.S.-approved spark arrestor, stainless steel mid pipe and end-cap, aluminum muffler and strong mounting brackets for durability. The T-4S is proudly made in the USA.

Pro Circuit still carries Ti-5, T-5, Ti-4 and T-4 exhaust systems for older model dirt bikes that have not been superseded by the Ti-6 or T-6. Please call for more information on whether we carry exhaust for your specific application.

Single canister exhaust system.

Dual canister exhaust system.

T-6 YAMAHA RAPTOR 700R STAINLESS EXHAUST SYSTEMS

FROM \$818.96

» Our T-6 single and dual systems for the Yamaha Raptor 700R are designed to improve performance and are constructed from stainless steel, offering ATV riders a more durable system. The T-6 also comes equipped with United States Forest Service (U.S.F.S.) approved spark arrestor(s), making it easy to alternate between closed-course and off-road riding. The T-6 is proudly made in the USA.

T-5 POLARIS RZR XP 900 EXHAUST SYSTEM

\$943.91

» The aluminum and stainless steel construction provides a lightweight, yet durable exhaust to cater to any off-road driver. Includes a U.S.F.S. approved spark arrestor, allowing you to drive within U.S. National Parks. The T-5 is proudly made in the USA.

T-4 ATV STAINLESS STEEL EXHAUST SYSTEM

FROM \$278.21

» Our T-4 ATV systems offer increased performance gains and are constructed from stainless steel and aluminum. Strong mounting brackets included for durability and each exhaust is proudly made in the USA. Titanium systems are also available.

ACCESSORIES

Our line of accessories offer a special way to make your motorcycle stand out at the race track. A little bit of style and performance is what it's all about when personalizing your machine, why not do it the right way? Every accessory we make enhances either the way your bike runs, handles and/or looks. From our Billet ignition covers to our launch control devices, every Pro Circuit accessory offers more than what an OEM part can provide.

The accessories line doesn't stop at launch control devices. We also carry a line of promotional goodies like traveling bags, sticker sheets, banners and pit boards to have you looking flashy on-the-go or in your pit area. We're proud to create quality accessories with the Pro Circuit name attached to every single item out there.

ALERT CARRY-ON

STRIKE BACKPACK

CRUISE GEAR BAG

MONSTER ENERGY/PRO CIRCUIT BAG COLLECTION

» Pro Circuit teamed up with OGIO to create a line of bags that have just what you need for all of your traveling and moto needs. Our unique line consisting of a carry-on, backpack and a gear bag will be sure to add some style wherever you go.

ALERT CARRY-ON 22" H x 14" W x 10" D

\$209.95

CRUISE GEAR BAG 34" H x 16.5" W x 15.25" D

\$319.95

STRIKE BACKPACK 19" H x 13" W x 7.5" D

\$74.95

UMBRELLAS PRO CIRCUIT & RACE TEAM

FROM **\$29.95**

» These umbrellas feature a manual open and close system, nylon shell with Pro Circuit logos. Grab yourself some shade!

LUGGAGE TAG

\$6.95

» Carry the Pro Circuit brand with you wherever you travel and make it easy to identify your bag.

TAPE MEASURE

\$3.00

- » Features a 39" retractable metal tape with inch and metric measurements, perfect for checking sag.

LANYARD

\$5.00

- » Perfect for keeping your keys or gym pass near you at all times.

LICENSE PLATE FRAMES

FROM \$9.95

- » Get rid of those boring car dealership license plate frames and show the world you race with the best.

HITCH COVER

\$12.95

- » Battle traffic in style and show everyone behind you why you're leading the pack. Fits all class 3 hitch receivers.

MOUSE PAD

\$7.99

- » Stylize your office desk with the Pro Circuit Mouse Pad. It will have you roosting on the internet in no time.

PIT BOARDS

\$44.95 (EACH)

- » Our pit boards are stylish, durable and make it easy to relay information to your rider during his/her moto. Marker included.

CERAMIC MUG

STAINLESS MUG

COFFEE MUGS

FROM \$5.00

- » Our coffee mugs are perfect for those early mornings at the track.

PIT RUG

- » Our pit rug is designed to give your pit setup the factory look and comes in multiple colors to go with whatever brand you ride. Standard and mini available in all colors. Counter mat available in blue/red only.

PLEASE CALL

RACE CHAIR

\$55.00

» The folding aluminum Race Chair features padded armrests with polyester seat and backrest along with printed logos.

DELUXE LOGO SHEET

\$19.95

» The Deluxe Logo Sheet is 13"x19.5" and includes 26 stickers.

ORIGINAL LOGO SHEET

\$12.95

» Original Logo Sheet is 13.25"x10.25" and contains 16 stickers.

ORIGINAL LOGO VAN DECAL

\$9.95

» Perfect for any van or truck back window. Decal size 36"x9".

ORIGINAL LOGO BANNER

#1 PLATES RACE BANNER

VINYL BANNERS

FROM \$21.95

» Pro Circuit vinyl banners are a great addition to any garage or race track. Original Logo Banner is 90"x23" and #1 Banner is 94.5"x26".

FRONT FENDER DECALS

FROM \$11.95 (PAIR)

» Pro Circuit Front Fender Decals are sold in pairs and are available for mini and standard size bikes in white, black, yellow and hologram color ways. We also offer a Maxima Oils fender decal for mini and standard size bikes as well.

REAR BRAKE CLEVIS

\$54.95

- » Constructed of billet aluminum and designed to eliminate the free-play on the OEM brake pedal setup.

HOT START CONNECTOR

\$29.95

- » Available for all Keihin FCR carburetors, this CNC-machined aluminum fitment eliminates the hot start from sticking.

BRAKE HOSE CLAMP

\$44.95

- » The Brake Hose Clamp firmly holds the brake line in place and is more durable than the OEM clamp.

SHIFT LEVER SELECT XR/CRF/KXF/YZ/YZF MODELS

\$99.95

- » This shift lever is designed to prevent dirt from clogging and interfering with the shift lever functionality.

AXLE BLOCKS

FROM \$34.95

- » Made from billet aluminum, axle blocks allow for precise wheel alignment. Colors vary from brown, red to raw aluminum.

EXHAUST PLUG FOUR-STROKE

\$8.95

- » An essential item when washing your bike, this plug prevents water and mud from leaking into your exhaust system.

WATER PUMP KIT

FROM \$189.95

- » CNC-machined from billet aluminum, color anodized and designed to increase the performance of your cooling system.

THERMOSTRIPS

\$22.95

- » Monitor the running temperature of your engine, shock or radiators with ease. Three strips per pack.

BANJO BOLTS

\$49.95

- » Banjo Bolts can be fastened onto the front and rear brake master cylinders, and front and rear brake calipers.

FUEL MIXTURE SCREW

\$29.95

- » Designed to make quick and easy Keihin carburetor adjustments, while the knob is easy to grab and adjust.

AIRBOOTS KX250F/KTM 65 SX/TC 65

FROM \$415.00

- » These airboots seek to optimize the "intake wave" so as to increase the airflow into the motor and consequently increasing horsepower.

IGNITION AND CLUTCH COVERS

FROM \$169.95

- » Our billet ignition & clutch covers increase strength, improve wear resistance and increase performance. Ignition covers available for Kawasaki models only.

COUNTER SHAFT COVER KX80/85/100

\$99.95

- » Bolts over the aluminum case saver to add a factory look and offer additional protection. For the KX80/85/100 ignition cover.

HEAT SHIELDS GOLD OR SILVER FILM

FROM \$49.95

- » Heat shields adhere to the bottom of the gas tank to reduce operating temperatures for better performance. Films measure 27"x24" and require some cutting to fit your gas tank.

TITANIUM CATCH CAN

\$169.00

- » A catch can connects to the over flow on the radiator and is designed to capture coolant when the bike gets hot. The coolant will flow back into the radiator once your bike has cooled down. Its purpose is to maintain optimal coolant levels during a race.

PIPE SPRING PULLER

\$5.00

- » Our pipe spring puller is constructed from quality metal for durability and is designed to easily remove or install pipe springs on your two-stroke or four-stroke exhaust.

JO SHIMODA

THROTTLE TUBES 2-STROKE & 4-STROKE FROM \$59.95

» CNC-machined out of aluminum and Teflon coated on the inside to reduce friction giving you a smoother twist of the throttle.

LEVERS BRAKE & CLUTCH FROM \$19.95

» Made from forged 6061 aluminum for strength and durability. These levers are designed to fit the stock perches.

LAUNCH CONTROL DEVICE \$119.95

» Designed to enhance traction during starts and prevent wheelies. Available for most makes and models.

ENGINE PLUG KIT SELECT STANDARD/MINI FROM \$69.95

» CNC-machined from aircraft-grade aluminum, and anodized red. Kits may come with less or more pieces than shown.

WORKS BIKE STANDS MINI OR STANDARD **\$145.00** (EACH)

» Works bike stands feature a non-slip rubber top and are built from extruded aluminum for durability and lightweight. Side panels sold separately.

STAND REBUILD KITS MINI OR STANDARD **\$20.15** (EACH)

» Included in each kit is a new rubber top, 8 rivets and 4 new decals that will have your Pro Circuit stand looking like new again.

CARBON FIBER CHAIN GUIDE KX250F/KX450 **\$305.95**

» The carbon fiber bracket extends farther towards the rear wheel providing a precise feed of the chain to the rear sprocket.

PACKING KITS **\$26.05**

» Two-stroke packing kits are available in a couple different sizes for all Pro Circuit silencers. All necessary hardware included.

2021 TEAM GRAPHIC KIT MONSTER ENERGY/PRO CIRCUIT/KAWASAKI

» Team kits are made by Throttle Syndicate exclusively for Pro Circuit. Heavy-duty clear vinyl is used for all sticker components and a self-adhesive backing is applied for easy application. Number plate backgrounds and seat cover available separately through Throttle Syndicate.

KAWASAKI KX85 2014-2021 **\$126.75**

KAWASAKI KX250 2021 **\$126.75**

ENGINE MODIFICATIONS

With over four decades of engine building experience, making sure the mini and standard sized bike engines that roll through our shop are tuned to help our riders stay on track and win races is a priority. We take great satisfaction in modifying some of the fastest and most dependable engines for two-stroke and four-stroke dirt bikes. On top of that, we also offer a line of high-performance engine components like pistons, camshafts, valve springs and more that not only increase performance but can boost the life of your engine.

Any dirt bike engine can greatly improve from one of our modifications, no matter if you ride a Gas Gas, Honda, Husqvarna, Kawasaki, KTM, Suzuki or Yamaha.

VALVE SEATS

FROM \$129.95 (PER SEAT)

- » Pro Circuit Copper Beryllium Valve Seats will not chip like the stock seats. They also help dissipate heat and increase the lifespan of your valves.

TRANSMISSION REM ISOTROPIC FINISHING

FROM \$349.95

- » REM Isotropic Finishing reduces friction, increases the lifespan of transmission parts, improves shifting and lowers operating temperatures.

HIGH-COMPRESSION PISTON COATED PIN

FROM \$359.95

- » High-Compression Pistons are forged from high-quality aerospace aluminum alloy, manufactured by JE Pistons using advanced CNC-machined technologies. Designed and engineered to Pro Circuit's exact specifications*.

Used by many factory teams.

CAMSHAFTS

FROM \$429.95

- » Pro Circuit Camshafts are designed to provide superior performance over stock (HP/torque) by optimizing the valve lift profile. Used in conjunction with Pro Circuit valve springs should ensure a valve train free of dynamic bounce.

CLUTCH SPRINGS

FROM \$54.95

- » Pro Circuit Clutch Springs are a must-have for any dirt bike, stock or modified. We designed our clutch springs to increase clutch life and reduce slipping.

VALVE SPRINGS

FROM \$164.95

- » Pro Circuit Valve Springs allow your engine to run at a higher RPM without loss of valve control. Depending on your bike, some of our valve springs will also include seats.

VALVE SPRING KIT

FROM \$299.95

- » Valve springs allow your engine to run at a higher RPM without the loss of valve control. Comes with retainers & keepers. Some models will also include spring seats.

TITANIUM EXHAUST/INTAKE VALVES

FROM \$357.95

- » Our valves are designed to increase performance and are thermal-nitride coated to reduce normal wear.

*Coated wrist pin on select models only.

WRIST PIN COATED

FROM \$109.95

- » Designed to stand up to higher engine RPM and operating temperatures while also reducing friction.

COATED TAPPETS

\$459.95

- » Designed to last longer than stock, reduce cam lobe and bucket wear and will prolong the life of your engine's cam.

RADIATOR HOSE KIT STANDARD

FROM \$53.00

- » Standard Radiator Hose Kits replace the stock hoses and run at higher temperatures and pressures than other hoses.

RADIATOR HOSE KIT "Y" KIT

FROM \$155.00

- » The "Y" Radiator Hose Kit is designed to eliminate the plastic "Y" elbows found in other radiator hoses.

GET C1 ENGINE HOUR METER

\$49.95

- » Hour Meters keep track of your engine's service life, fit to any type of bike and also works on any type of engine.

TWIN AIR FILTERS

FROM \$29.95

- » Twin Air filters are designed to increase airflow while ensuring the highest level of protection from dirt and dust.

ENGINE KIT 2017-2020 CRF450R/RX

\$1,295.00

- » This package consists of our high-compression piston kit, camshaft and valve springs. Each part has been designed and tested to complement each other for significant engine performance gain at all RPM levels. Performance parts cannot be sold individually.

VFORCE4R 2019-2021 YZ65/YZ85

\$178.00

- » Moto Tassinari's VForce4R reed valve system is designed with a shallower petal angle which allows them to open further and with much less force than that of the stock reed system equating to better fuel flow and ultimately more power.

AUSTIN **FORKNER**

SETH **HAMMAKER**

SUSPENSION SERVICES

For the past three decades, our skilled suspension technicians have taken care of settings for supercross and motocross racers to off-road racers and everyone in-between. We hope the expertise we have gained from these years of carrying out settings and tuning suspension for amateurs and professionals instills confidence in our customers knowing their suspension is in good hands.

We provide three different suspension stages that can be chosen from to fit one's budget. Simply fill out a suspension form fitted for your bike and include it in the box with your forks and shock. Send everything to us and we will send your suspension back ready to bolt on and go riding. We can tune Showa, KYB, WP and Ohlins suspension for mini bike riders and big bike riders.

Riders should also keep in mind our suspension accessories to go along with your newly freshened up set of suspension. We have triple clamps and linkage arms to greatly increase the handling of one's bike and most of these parts are simple bolt-on items.

WORKS SHOWA DUAL SPRING FORKS FROM \$8,675.00*

1. Showa's dual spring works forks complete with 27mm cartridge system and the largest ever compression pistons (39mm) are the true works version of the production forks found on the CRF450R/250R as well as the RM-Z450 and KX450. Precision machined parts, state-of-the-art coatings, billet machined axle lugs and large 49mm slide tubes work to increase rigidity, traction and feel where it's most needed while keeping the ever desired plushness.
2. The 49mm inner tubes, larger outer tubes, and precision machined internal parts all received state-of-the-art coatings to reduce friction and increase durability.
 - a. Ti-Nitrate coated 49mm lower tubes.
 - b. Kashima coated upper tubes.
3. Anodized billet CNC-machined axle lugs provide increased strength, control and precision steering.
4. Oversized 18mm Ti-Nitrate coated shock shaft.
5. The 50mm Kashima coated shock body reduces friction as well as heat build up.
6. Works Showa shock offers a more controlled stroke and stable ride.

*Pricing is for gold coating. Turquoise is higher-priced.

WORKS SHOWA SUSPENSION KX85/100 \$5,479.95**

- » The Works Mini Showa Suspension for the 2014-2021 KX85/100 is designed after our race team suspension. It comes with race team style coatings, larger inner and outer fork tubes, shock body and shock shaft to maximize performance, resulting in a much more controlled stroke with better traction and cornering.

Making its motocross debut a few years back at the Mammoth Mountain Motocross, Team Green riders like Jett Reynolds and Ryder DiFrancesco achieved success on the new suspension by earning wins and podium finishes and that same technology is available to you.

**Additional parts like triple clamps and other accessories may be required.

Only available in turquoise coating.

STAGE 1 SHOCK/FORK OIL CHANGE & SERVICE FROM \$235.00*

» Complete disassembly of your shock and forks for cleaning and inspection of all internal parts. Replacement of worn parts if required** and complete reassembly using PC-01 & PC-02 suspension fluids. If necessary, springs will be updated with customer approval at an additional fee. All clickers and race sag will be pre-set to your weight and our recommended settings.

2021 KX250 A-Kit Shock

CRF250R Suspension

STAGE 2 SHOCK/FORK RE-VALVE & SET-UP FROM \$576.80*

» This stage includes all of the stage 1 modifications plus complete re-valving of your shock and forks for your type of riding and ability level. This custom tuning and set-up alters your bike's handling, and improves the overall balance and performance of your suspension.

STAGE 3 SHOCK/FORK RE-VALVE & SET-UP PLEASE CALL

» Stage 3 includes all of the stage 1 and 2 modifications plus the option to install our works parts like: Supercross Spring Seats, Works Bladder Caps, Works Shock Anodizing Kit and more. This modification is our top-of-the-line suspension set-up and will benefit riders of any level.

*Springs/wear items not included. Parts pricing may vary. **Parts required may vary depending on condition of internal parts.

UPGRADE KIT SHOWA TAC

\$109.95

- » For the '15 CRF250R, '15-'18 KX450F and '15-'17 RM-Z450 models, this upgrade offers a smoother stroke with a more consistent ride height, and a new seal design which offers better sealing and less stiction.

SUSPENSION FLUIDS

\$27.95 (EACH)

- » The PC-01 and PC-02 suspension fluids withstand the rigorous demands of motocross and off-road racing.

'18-'21 CRF250R Pull Rods

'17-'20 CRF450R Pull Rods

'18-'21 RM-Z250/450 Linkage

LINKAGE ARMS AND PULL RODS

\$224.95 (EACH)

- » Linkage Arms and Pull Rods are designed to stiffen up the initial linkage curve and improve the geometry of the chassis, which improves stability.

PC-03 & PC-04 GREASE AND LUBE

\$12.95 (EACH)

- » PC-03 Seal and O-ring Grease should be used on any seal or o-ring during assembly. PC-04 Assembly Lube is an all-purpose grease which provides great film strength.

SHOCK/FORK SPRINGS

FROM \$129.95

SFF FORK SPRING

FROM \$94.95

- » Replacement shock and fork springs are available for most Showa, KYB and WP equipped models.

TRIPLE CLAMP KIT

\$699.95

- » Triple Clamp Kits include a clear anodized top and bottom clamp with a black reversible bar mount that fits 1 1/8" handlebars.

LINKAGE SYSTEM '21 KX250, '19-'21 KX450

\$445.00

- » The Pro Circuit Linkage System offers a plush feel while increasing traction. A considerable amount of testing for this has resulted in a more true-to-weight spring rate to reach the ultimate sweet spot in handling for your new KX250/KX450.

WORKS BLADDER CAP KITS

FROM \$64.95

- » Works Bladder Cap Kits will reduce shock fade by increasing the nitrogen volume. Includes bladder, cap and air valve. Color and shape vary depending on bike.

WP DUAL SPRING XPLOR FORKS AVAILABLE IN STAGE 1, 2 AND 3

FROM \$235.00*

» Stock, these WP Dual Spring Xplor Forks have a very plush feel to them, but lack the capability of being able to make it progressive enough for the faster, more aggressive riders. The Pro Circuit kit changes the forks adjustability so each fork leg is capable of adjusting both compression and rebound control. These modifications, along with valving changes make these forks much more progressive while retaining a plush feel.

WP AIR FORKS AVAILABLE IN STAGE 1, 2 AND 3

FROM \$235.00*

» The new WP Air Forks are triple chamber SFF air forks very similar to the TAC SFF Showa forks. Pro Circuit is experienced in dealing with these systems and tuning these forks to improve their performance.

AIR-TO-SPRING CONVERSION KIT WP AER 48 AIR FORK AND SHOWA TAC AIR FORK

\$659.95

» For the riders that want to get back some simplicity in their life and not have to mess with air pressures, we now offer a simple spring hybrid conversion cartridge that can be easily dropped into your WP AER 48 Air Fork or your Showa TAC Air Fork. The fork cap on this conversion kit comes with an air valve that can be used to make the fork a little more progressive through the stroke for the faster, more aggressive riders or can be run at zero pressure for the riders that don't want to mess with air. If you're at a mud race, a little air can also be added to help your forks hold up better against the extra weight given from mud collecting on your bike. For sand races, the spring preload can easily be adjusted without taking the fork all the way apart, letting the fork ride a little higher. Made in the USA.

KIT AVAILABLE FOR:

2015-2017 CRF250R, 2015-2018 KX450F, 2016.5-2021 KTM 125 SX, 250/350/450 SX-F, 2015-2017 RM-Z450, 2017-2021 Husqvarna TC 125/250, TX 300, FC 250/350/450, FX 350/450, 2021 Gas Gas MC 125/250F/450F, EX 300/250F/350F/450F

*Pricing is based on our stage 1 service. Springs/wear items not included in price. Parts pricing may vary.

(85 Shock Not Shown)

WP 50MM x 18MM SHOCK 250/350/450

WP 46MM x 18MM SHOCK 85

WP 36MM x 14MM SHOCK 50/65

» The new large reservoir WP shock comes with a floating piston in the reservoir to separate the nitrogen and oil. We install our bladder, high-volume bladder cap, and reservoir kit (available for KTM models in orange and blue for Husqvarna models) to increase volumes and make the shock a smoother, more seamless stroke. This, along with our personalized valving changes, really bring out the performance in this shock.

LINKAGE SYSTEM KTM & HUSQVARNA

\$445.00

» The linkage system for the KTM 2015.5-2021 and Husqvarna 2016-2021 models causes the bike to have a feeling that is much too harsh and stagnant, whereas the preceding bike models had an OEM linkage system providing an unwanted lazy and soft feeling. The new Pro Circuit linkage system utilizes some of the mechanical advantages of both designs, which allows for the use of a more true-to-weight spring rate and to reach the ultimate sweet spot in handling.

SHOCK COLLAR UPGRADE

\$69.95

» The problem with the OEM preload collar for the '19-'21 KX450, '17-'21 RM-Z450, select '21 Gas Gas and '16-'21 KTM and Husqvarna models is its plastic composition. During use, it heats up and along with dirt working its way underneath becomes deformed, which makes tuning and adjustment extremely difficult. Pro Circuit's solution offers a CNC-machined 6061 aluminum preload collar with a zinc-plated steel lock ring for improved durability and much easier adjustments. Discard your OEM preload collar for Pro Circuit's new preload collars.

FORK SYSTEM KTM 50/65 SX & SXS '12-'21 FROM \$295.00

» This new fork system installs inside the left OEM damper leg turning it into a closed-cartridge system to pressurize the oil. This results in a much improved and consistent damping without any cavitation.

LINKAGE ARM KTM

\$224.95

» Linkage arms are available for 2011-2014 KTM 250/350/450 SX-F and 2012-2014 125/150/250 SX models to stiffen up the initial linkage curve and improve the geometry of the chassis, which improves stability.

KX85/100 Suspension

MINI MODIFICATIONS AND SERVICE HONDA/KTM/KAWASAKI/SUZUKI/YAMAHA

FORK OIL CHANGE & SERVICE	\$109.95*	FORK REVALVE & SETUP	\$194.95*	BLADDER CAP KIT	\$58.95
SHOCK OIL CHANGE & SERVICE	\$89.95*	FORK INTERNAL KIT (KX ONLY)	\$499.95	ANODIZE KIT (CRF150R ONLY)	\$209.95
		SHOCK REVALVE & SETUP	\$164.95	SHOCK BODY HARD ANODIZING	\$129.95
		SHOCK INTERNAL KIT (KX ONLY)	\$81.75	FORK TUBES HARD ANODIZING	\$249.95

» The Showa and KYB mini bike suspension is designed for a target skill level and weight. The problem that most riders run into is they start riding the bikes when they are very light and stop when they are much heavier and about to start on a 250F. Pro Circuit's experience in setting up mini bike suspension for riders that have experienced this transformation in weight, height and skill range from Ricky Carmichael to our current crop of riders. This experience enables us to match the exact spring rate, valving spec and performance parts to make your bike perform to your standards.

LINKAGE SYSTEM KX65/85/100 **\$324.95 (EACH)**

» The KX65/85/100 linkage systems improves handling, stability and includes all the required bearings, seals, knuckle and rods.

PULL RODS KX85/100 **\$104.95 (EACH)**

» Two pull rod versions are available for the KX85/100. One kit raises the chassis while the other kit lowers the chassis.

*Price listed is for labor only. Parts, springs and fluids not included.

MINI MOTO

CRF110F '19-'20

KLX140 '08-'20

TT-R125 '00-'20

T-6 STAINLESS STEEL EXHAUST SYSTEM

FROM \$262.46

- » Our T-6 exhaust systems for mini moto bikes offer improved performance, durability and a professional look. A stainless steel head pipe, brushed aluminum canister, carbon fiber end-cap as well as a United States Forest Service approved spark arrestor also come equipped making it easy to alternate between off-road and closed-course racing. Available for select CRF, KLX and TT-R models.

CRF110F '19-'20

KLX110 '02-'20
DR-Z110 '03-'05

TOP CLAMP & BAR MOUNT

FROM \$279.00

- » Designed to suit the taller rider, the Pro Circuit top clamp and bar mount helps create more legroom by raising the handlebars. Available for select CRF110F/KLX110/DR-Z110 and TT-R110 models.

TAPPET AND CAM COVERS

FROM \$60.00

- » Tappet Covers and Billet Cam Covers are machined from aircraft-grade aluminum, anodized red or blue and then hand polished.

THROTTLE TUBES CRF/KLX/TT-R

\$59.95

- » CNC-machined out of aluminum and Teflon coated on the inside to reduce friction giving you a smoother twist of the throttle.

IGNITION COVER 2010-2020 KLX110/L

\$63.00

- » This ignition cover is CNC-machined out of aluminum for strength and durability then anodized for surface hardness.

ENGINE PLUG KITS CRF/KLX/TT-R

FROM \$70.00

- » Machined from aircraft-grade aluminum, anodized red or blue and hand polished for a true works look. For 110 models only.

SHIFT LEVER CRF/KLX

\$99.95

- » Our shift lever is designed to prevent dirt from clogging and interfering with shift lever functionality. This shifter is also slightly longer than the OEM shift lever to benefit adults.

CASUAL APPAREL

At Pro Circuit, we aim to create apparel that offers a cool look and great fit that our fans would love to wear to a race or out to dinner in with friends. With excellent printed and embroidery work, as well as quality garments that last for years after washing, we feel our apparel holds up to our standards.

The Pro Circuit headwear line continues with trendy fitted and adjustable snapback hats that feature a few new corduroy styles for 2021 that fans will dig. Throw in a couple new warm beanies to the mix, and picking out an accessory to throw on before heading out the door just became a lot easier.

Finally, our Monster Energy/Pro Circuit/Kawasaki line of apparel puts you as close to being a team member as a fan can be. We offer a simple 3-logo team design or a much more decorated full logo design that includes all of our team sponsors. Race team apparel is available in multiple styles including tees, long sleeves, hoodies, hats and jackets in all the popular sizes.

RACE TEAM SPONSOR PRODUCT

Pro Circuit stocks and sells most of the race team sponsor products. Listed here is just a small sample of the products available through our sales office.

TERMS AND CONDITIONS

BUSINESS HOURS: Pro Circuit Products, Inc. is open from 8:00am to 5:00pm (PST) Monday through Friday. The service and suspension departments are open from 9:00am to 5:00pm (PST) Monday through Friday. The showroom is open to the public from 8:00am to 5:00pm (PST) Monday through Friday. Pro Circuit Products, Inc. is closed on weekends and all major holidays.

PRICES: All prices are subject to change without prior oral or written notice. All orders are invoiced at prices in effect at the time of the shipment.

CONTENTS: Pro Circuit Products, Inc. believes the contents and specifications of its catalog, website, ads and promotions are correct. We assume no liability for any errors in listings, specifications, part numbers, prices or model applications. We reserve the right to change specifications, product descriptions, product quality, pricing and application at any time without prior oral or written notice.

BACK ORDERS: Pro Circuit Products, Inc. will always try to avoid back orders. However if a back order situation does occur, Pro Circuit Products, Inc. will take your order and ship your product as soon as it is available.

SHIPPING: All orders are shipped via FedEx, UPS or US Postal Service (military addresses only). The standard shipping method is FedEx ground service. FedEx Express (3-day), air (2-day), overnight (1-day) and UPS services are also available at additional costs, and only when requested and approved by Pro Circuit Products, Inc. Pro Circuit Products, Inc. does not offer COD delivery for retail customers. If you require your order to be shipped via US Postal Service (military addresses only), there will be additional handling fees due to costs incurred by Pro Circuit Products, Inc. in delivering packages to the post office.

RETURNS: No returns will be accepted on unused products after 30 days of purchase date. Returns for warranty consideration must be approved by Pro Circuit Products, Inc. Prior to ANY return shipment, call Pro Circuit Products, Inc. for a return authorization number (RA#). New product must be in original packaging and in condition fit to sell as new. A copy of your original sales receipt must be included with the product being returned. Authorized returns are subject to a restocking fee of up to 20% of the original purchase price. All sales are final on discontinued and close out items.

LIABILITY: All products manufactured and/or distributed by Pro Circuit Products, Inc. are offered and designed for use with standard machines. Pro Circuit Products, Inc. makes no claims as to the products effectiveness on modified machines. Pro Circuit Products, Inc. is the sole determiner of abuse, misuse, installation errors and modifications. We assume no liability for any errors in listings, specifications, part numbers, prices or model applications. Pro Circuit Products, Inc. reserves the right to change specifications, product descriptions, product quality, pricing and model applications at any time without prior oral or written notice and without further obligation.

Adding new components to your motorcycle (especially to the engine, suspension or braking system) may radically alter the acceleration, deceleration, handling and braking characteristics of your motorcycle. Ensure that all parts are installed and properly torqued per the instructions supplied with the part or to the motorcycle manufacturer's original specifications. Test the motorcycle with the new part(s) on level ground, at low speed, without any other vehicles or obstacles nearby, to ensure that it is working properly. Periodically recheck, adjust or replace the parts as may be necessary depending upon the terrain, use, mileage and rider input. Consult the instructions supplied with the part, or the motorcycle manufacturer's original specifications for further details. The failure to properly install, maintain, or familiarize yourself with the new part's use, and proper operation, may result in damage to the motorcycle, and/or a loss of control, resulting in serious injury or death. Buyers assume all risk for any and all damage caused to themselves, a third party and/or property by virtue of failure of these products. By installing and/or using a Pro Circuit Products, Inc. product, you hereby accept and understand these stated terms and conditions.
